Pallet Wrapper Semi-Auto (One

ASTROLIFT
ty and Efficiency

Semi-Automatic Pallet Wrapper | SIAT

The Onewrap Pallet Wrappers by SIAT are extremely user-friendly and include up to 10 programmable functions within its computer. Easily operated by a single person, SIAT Pallet Wrappers maximise output, as well as a perfectly strong wrap of the pallet every time.

Many of the parts of SIAT's semi-auto pallet wrappers have been simplified for ease of use, and the wrapping machine now has improved covers and guards for added safety and style.

SIAT Pallet Wrappers are compliant to New Zealand Health and Safety Standards

While in operation, a pallet wrapping cycle can be stopped at any point and then continued when the user is ready. This is great for any unexpected issues in the warehouse during wrapping.

SIAT Pallet Wrapper Key Benefits

- A two digit large display controller is used to display the parameters for adjustment such as speed, number of wraps, as well as error codes for fast machine troubleshooting.
- Made in Italy

Semi-Automatic Pallet Wrapping Machine Uses

- SIAT pallet wrappers are great for medium to large volume warehouses
- Semi-Automatic pallet wrappers can be operated by a single person, which is ideal for businesses with smaller warehousing staff
- Automated Pallet Wrapping is great for heavy or difficult loads, where a consistently strong wrap is important for safety and security of goods

Astrolift have a wide range of quality pallet wrappers. [View the full range here.](#)

FEATURES

- **Delivery:** Flat-packed
- **Ingress Protection:** IP 54
- 5 Operation modes
 - Auto Up Only
 - Auto Up Only, Pause for top sheet
 - Auto Up and Down
 - Auto Up and Down, pause for top sheet
 - Manual Mode
- Programmable
 - Carriage speeds
 - Pauses/delays
 - Top sheet application cycle
 - Overwrap amounts
 - Up to 10 different stored cycles
- **Finish:** Powder-coated
- Forklift pockets for repositioning
- Reclining column - packs down easily
- Pallet height photocell
- Easy Stop/Start during wrapping cycle
- Easily upgradable software
- Belt driven carriage

SAFETY

- Film break detection
- Turntable locking feature - stability while loading/unloading
- Lockable Operation Switch
- Enclosed motors

WARRANTY

2 Year Warranty

Capacity (kg)	2400	Diameter (mm)	1650
